

WizzInvest

Invest faster, invest wiser

The starting point

Need for accurate and timely risk information to make better investment decisions is only increasing

Solvency 2

Big impact across the asset-management industry

- ✓ **Risk-based regulation** that creates a new investment paradigm
- ✓ A **new governance** that strengthens the role of the Chief Risk Officer
- ✓ **Market risk** is an important contributor to the capital buffer so an important lever to act on
- ✓ **Tri Partite Template (TPT)** has become the standard file to be delivered for supporting investors in their quest for transparency

Investors leverage on the TPT to collect the data they need to monitor their investments

WizzInvest

Our ambition

Provide insitutional investors with
the **IT & data** they need to
control and manage their
investment **risks**

WizzInvest

DEAP: the Data Exchange & Analysis Platform

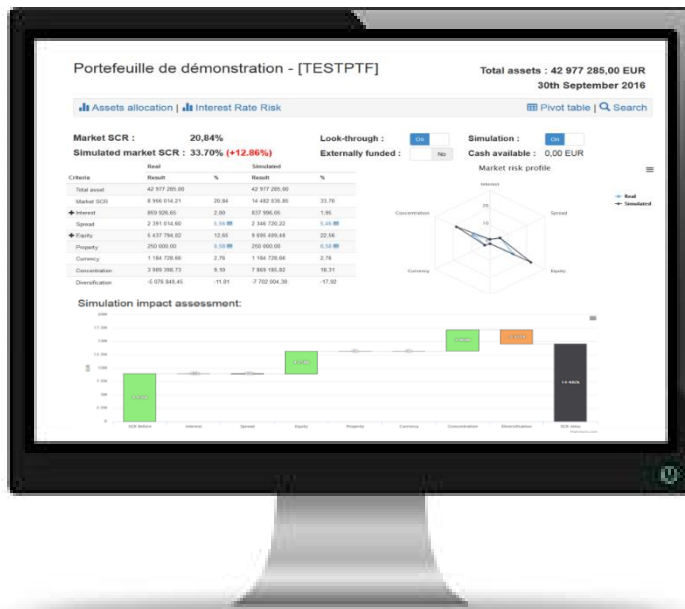

WizzInvest transforms raw data into valuable information

Data distribution

Use the channel adapted to your needs

Web interface

OR

For a seamless integration
into your information
system

Connect to our web site and leverage
on our user-friendly interfaces
(interactive analysis, simulation)

WizzInvest

Our value proposition

Load your data on the platform, give access to your clients, keep control on the analytics disclosed, prescriptive analytics
